More Than Words®

The Hanen Program® for Parents of
Children with Autism Spectrum Disorder or
Social Communication Difficulties

About More Than Words

More Than Words® is a family-focused program that gives parents of children with Autism Spectrum Disorder (ASD) or social communication difficulties practical tools to help their children develop communication skills through everyday routines and activities.

Parents Participate in More Than Words

Parents are the most important people in their child's life. One of the greatest gifts you can give your child is the help he or she needs to communicate and connect with the world. In the *More Than Words* program, you will learn what motivates your child to communicate and how your child learns best. Together you'll help your child to communicate and interact in more mature and effective ways.

The Program Includes:

- Pre-and post-program assessment of your child's communication skills
- Eight evening class sessions for parents
- Three in-home consultations for you and your child with coaching and video feedback
- Final summary report

Ventura Class

750 Skyline Rd., Ventura, CA 93003
Wednesday evenings, 6:00pm - 8:45pm
